🏢 WORK EXPERIENCE

Senior Software Engineer

January 2022 - Present | Royal Cyber | Karachi | Pakistan

- System Optimization: Implemented a streamlined code logic, reducing the overall response time of a critical module by 30% and enhancing system efficiency.
- Team Collaboration: Actively collaborated with cross-functional teams, including designers and QA analysts, to ensure seamless integration of software components and resolve any technical bottlenecks.
- Problem Solving: Developed innovative solutions to complex technical challenges, such as optimizing database queries and resolving compatibility issues across different platforms and technologies.
- Emerging Technology Research: Proactively conducted research on emerging software development technologies and frameworks, leading to the adoption of a new frontend framework that improved the user interface and overall user experience of a flagship product.

Software Developer

January 2021 - December 2021 | Zagop Inc | Karachi

- Contributed to the development of a new customer relationship management (CRM) system, streamlining the company's sales and support processes.
- Collaborated with cross-functional teams to enhance the performance and scalability of the company's e-commerce platform, resulting in a 30% increase in website loading speed.
- Led a team of junior developers in the design and implementation of an innovative inventory management system, reducing operational costs by optimizing stock levels.
- Played a key role in the migration of legacy systems to a cloud-based infrastructure, enhancing data accessibility and reducing maintenance efforts by 40%.

Web Developer

July 2020 - December 2020 | Graphics Design Hub | Hyderabad | Pakistan

- Web Development: Leveraged advanced technologies such as CodeIgniter, jQuery, and Ajax to enhance and customize a 3D modeling website. This improved user experience and increased customer satisfaction.
- 3D Model Customization: Played a key role in the development and customization of various 3D models, including lamps, watches, tables, and anatomical structures. This demonstrated strong technical skills and attention to detail in creating realistic and visually appealing models.
- Problem Solving: Proactively addressed technical challenges and bugs within the website, effectively troubleshooting issues and ensuring smooth functionality. This contributed to improved site reliability and minimized user disruptions.

- Innovation: Introduced Clara.io, a cloud-based 3D modeling platform, to the development process, streamlining workflows and allowing for seamless collaboration on projects. This innovation significantly enhanced team efficiency and project delivery.

Web Developer

November 2019 - June 2020 | Ghani Business Solution (GBSinn) | Qasimabad | Pakistan

- Leading Website Revamp: Spearheaded a comprehensive overhaul of the company's main website, enhancing its user interface and functionality, which resulted in a 30% increase in user engagement and a 20% decrease in bounce rate.
- Front-End Optimization: Implemented advanced front-end optimization techniques, including minification and lazy loading, which substantially improved the website's loading speed, leading to a 25% reduction in page abandonment.
- Collaborative Project Management: Effectively collaborated with cross-functional teams, including designers and content creators, to streamline website development processes, reducing project timelines by 20%.
